

THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

20 June 1983

NOTE FOR: Helene L. Boatner
Chief, Product Evaluation Staff

FROM : Henry S. Rowen
Chairman, NIC

I have just read the PES evaluation of the policy process on selected East-West trade issues and find it quite interesting, fair in its treatment of the history, and constructive in its suggestions. I have no disagreement with its treatment of the record and on the whole agree with the judgments presented.
